WEST LAFAYETTE, INDIANA 47906
MAIN PHONE: 765-775-5175

TO: West Lafayette Common Council

FR: Chief Timothy J. Heath

RE: June 2016 Report

Call Totals: West Lafayette Fire responded to 161 Total Calls in June: 104 Medical, 9 Fire, 8 Hazardous Condition, 15 Service Calls, 8 Good-Intent Calls, 16 False Alarms, and 1 Special Incident, bringing the yearly total to 1,097 calls.

Training: The department took part in many training opportunities and welcomed two new members in June. We started the month with EMS training with Lynnette Lister who instructed every member on Airway Management. Each member then practiced his airway management skills. We worked with Indiana American Water installing new color coded hydrant rings on city hydrants. These rings will help us locate the fire hydrant with the best water flow for firefighting operations. It also gave us a great opportunity to be out in our districts, working with the hydrants. Captain Need instructed the department on Fire Protection Systems, covering the operations of sprinkler systems, standpipe systems, and a review of the West Lafayette Menard's fire protection system. We welcomed two new firefighters, Adam Stanley and Cadel Cowl, and started their initial training which included how to use the equipment as well as how to function as a member of the WLF D. Captain Scott Barker and Firefighter Eric Doyle presented initial CPR training to city employees. Each month, the department will offer CPR training to increase the number of city employees who are CPR certified. Members of the department also took part in individual station training sessions, including truck equipment checks, maps review, driver training, new equipment review, and physical fitness. This brought the total man hours of training in June to 539.

Inspections: Fire Inspector Jodie Imel completed numerous activities this month, including 36 Inspections (consultations via telephone, email, on-site; fire prevention inspections and re-inspections; and planning inspections), bringing her yearly total for inspections to 1,039 and yearly total for all activity types to 1,764.

Softball: The West Lafayette Fire Department defeated the Monticello Fire Department **8-0** on Sunday, June 19, in a benefit softball game for Special Olympics. Did I mention we won **8-0**?

Training Report for June 2016

The month of June was another exciting month for the West Lafayette Fire Department. The members took part in many different training opportunities and welcomed two new firefighters to our ranks.

At the beginning of the month each shift took part in an EMS training session with Lynette Lister at Fire Station 2. Lynette Lister instructed on the topic of Airway management and each member practiced the airway management skills. This continuing education on our EMS skills provided 84 hours of training for the department.

Members of the Fire Department worked with Indiana American Water this month to install new color coded hydrant rings on many hydrants in the city. These ring will help the firefighters located the fire hydrant that flow the best water for firefighting operations. This detail provided an opportunity for the fire crews to be out in their districts and working with the fire hydrants. This task provided 126 man hours of training to the members of the Fire Department.

Captain Jeff Need instructed a whole department training session this month on Fire Protection Systems. The training session covered the operations of sprinkler systems, standpipe system, and provided a review of the West Lafayette Menards store fire protection system. The training session provided 126 man hours of training to the department.

The Fire Department welcomed two new firefighters to the department this month and began the process of initial training the new members. The new members will learn how to use the equipment and how to function as a member of the West Lafayette Fire Department. This process of training and orientation will continue over the next 12 months with both firefighters. Firefighter Adam Stanley will need to complete his Mandatory Firefighters training, this training started on his first day on the job. This orientation and initial training will provided 118 man hours of training for the new firefighters and other members of the department.

Captain Scott Barker and Firefighter Eric Doyle presented initial CPR training to five city employees, the city is in the process of increasing the number of city employees that are CPR certified. Each month there will be a CPR training class held at Fire Station 3 for city employees to attend. This training provided 4 hours of training to members of the Fire Department and 10 hours of life saving training to other city employees.

Members of the department also took part in individual station training sessions, some of the topics covered in these training sessions were truck equipment checks, maps review, driver training, new equipment review, and Physical fitness. These training sessions provided 81 man hours of training for members of the Fire Department.

June provided some great knowledge and skill improvement training for members of the Fire Department, a total of 539 man hours of training were completed in June. The Fire Department continues to grow in knowledge and skill.

Report by: Eric Doyle

MEMORANDUM

TO: Tim Heath
Chief

FROM: Jodie Imel
Fire Inspector

DATE: 29Jun16

SUBJECT: Monthly Activity Report – 21May16 through 20Jun16

The Division of Fire Prevention completed the following activities during the above noted dates.

Activity	Description	Total Completed
Inspections – All Types	The types of inspections included consultations via telephone, email and on-site visits; routine fire prevention inspections and reinspections; and planning inspections, which includes plan reviews and on-site visits.	36
Letters of Completion	An option for on-site reinspection is the return of a signed copy of the report of inspection. The representative's signature indicates all deficiencies noted during the routine fire prevention inspection have been corrected.	0
Updated Emergency Contact Information	This activity type is used when updating any of the emergency contacts for a particular occupancy or property. Notification could be by email, telephone call or on-site visit and could be initiated by an occupancy or property representative or by the Fire Prevention Bureau.	1
FireHouse Record	When a new occupancy or property is added to the FireHouse database, this activity is used. A new record may be created without including emergency contact information. In some instances, a new FireHouse record is created as a "placeholder" for a routine fire prevention inspection to be completed at a later date.	25
Total for all Activity Types		62
